Guidelines for Scholarship Schemes (other than Afghan Students) for new students joining in Academic Year 2021-22 and onwards

In case a new student fails in first year, his/her ICCR Scholarship would be suspended for one -year and he/she would have to self-finance his/her studies. Scholarship may be revived from next year (at the end of 2nd year) provided student clears the first year. In case student fails second time, his/her Scholarship will stand terminated and he/she would have the option to complete his/her course as a self finance student. In any case, scholarship would not be given for more than the prescribed length of course, except for PhD, where there exists flexibility. Example is given here under:

A new student who joins in July 2021 onwards:-

- (i) Upon declaration of results:
 - a) If student passes the examination, his/her scholarship will continue.
 - b) If student fails, and is not promoted to the next class, his/her scholarship will be suspended and can be revived once he/she clears the 1st year (provided he/she clears the exam at the end of 2nd year).
If the student fails again, the scholarship will stand terminated with no recourse for revival.
 - c) Scholarship will also stand terminated in case of (a) if student fails in 2nd year/any subsequent year and is not promoted in the next class/stage.
 - d) Students whose Scholarship have been terminated are not eligible for return travel allowance air tickets (if the schemes allow travel allowance/air tickets).
 - e) The Council will not extend the scholarship period if student is detained/debarred from appearing in the exam due to shortage of attendance or malpractice.

Guidelines for Afghan Scholarship Schemes:-

- (i) In case a new student fails and is not promoted to next class in first year, his/her Scholarship may be extended by one year. If the student fails again, and is not promoted to next class, he/she would need to self finance his/her studies. Scholarship may be revived from next year (at the end of 2nd year) provided student clears the first year. In case student fails more than twice, his/her scholarship will stand terminated and he/she would have to complete his/her course as a self finance student. No extension (i.e. scholarship for additional year) may be given after completion of 1st Year. In any case scholarship would not be given for more than the prescribed length of course (plus one year extension) except for PhD students where there exists flexibility.
- (ii) The Council will not extend the scholarship period if student is detained/debarred from appearing in the exam due to shortage of attendance or malpractice.
