To Whom It May Concern,

It is my pleasure to wholeheartedly recommend Mr. Myo Paing Oo for admission to a Master's program at your esteemed university. I have had the opportunity to observe and guide him during his undergraduate studies in Electronics and Communication Engineering.

Myo Paing Oo is a sincere and hardworking student with a strong academic foundation and a keen interest in engineering and technology. His academic performance has been consistently good, and he has shown dedication towards learning and improving his skills.

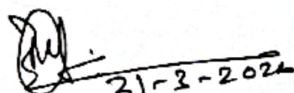

During his course of study, he has worked on several academic projects under my guidance, including an Arduino-based smart car system with Python integration, a Real- Time Vehicle Tracking System using STM32, and a drone simulation project using Gazebo and ArduPilot in a Linux environment. Through these projects, he demonstrated strong problem-solving ability, practical understanding, and the ability to apply theoretical concepts effectively.

He is a disciplined and responsible individual who approaches challenges with a positive attitude. He works well both independently and in a team environment and has shown consistent effort in his academic pursuits.

I strongly believe that Myo Paing Oo possesses the qualities, knowledge, and motivation required to succeed in graduate studies. He is a deserving candidate, and I am confident that he will make valuable contributions to your academic institution.

Please feel free to contact me if you require any additional information.

Sincerely,

Dr. Miral M. Desai Assistant
Professor,
V.T.Patel Department of Electronics C Communication Engineering CSPIT,
CHARUSAT Campus, Changa
